Press the button to see changes in the live preview and the login page

Open the Plugin menu (after installation)

Thank you for creating with [WordPress](#).

Version 6.5.5

Result

Learning Outcomes

- Word Press
- PHP
- CSS basics
- JavaScript basics
- Github
- Prompt Engineering
- Managment

Future Insights

Following areas would be worked on in future:

- Tooltips section
- Providing more gradient options
- Making preview better
- Providing a default button to go to default settings
- Allowing multiple setting choices to be choosed from

The other features would be worked on near future.
